Allegations Unfounded-- Council Moves on Complaints

Deputy Mayor Wheatley took the chair temporarily at Monday night's meeting of Town Council for discussion of a memorandum filed by Councillor Bull. The memo requested an explanation of the Mayor's recent trip to England and was read into the record. It alleged "improper pattern of events" in the purchase of the tickets and questioned visits to other points in Europe.

The mayor's air fare and all expenses were detailed by him in a written statement showing that the town actually saved \$40.00 on the "plane tickets because the mayor had combined the business trip with his holidays and took advantage of excursion rate. (For statement in full see page two.)

Councillor Gibbon felt the allegations reflected on the council as a whole and called for an open discussion. Councillor Donalds pointed out that council approved the arrangements with full knowledge of Mayor Fowler's vacation plans. Following a full discussion, Chairman Wheatley twice asked Councillor Bull if the mayor's statement was acceptable to him. Councillor Bull twice replied, "No comment". A motion to accept the statement was passed with Councillor Bull voting against.

Mayor Fowler brought to council's attention complaints from senior town administrators as to methods being used by councillors to obtain information. Secretary-treasurer Jack Flemming told council that Councillor Bull was using town stationery and postage meter apparently to conduct business on behalf of the

town, of which no record was made available for town files. "I will not have it," said Mr. Fleming, saying that town business is public business and must be properly channelled and recorded in accordance with the set procedure.

Reporting that department heads and other staff members were being continually questioned by Councillor Bull as to their salaries, promotion records and to provide files, often in his absence, Mr. Fleming said that these matters were open to investigation by any councillor and any member of the public "through a proper chain of command."

"The situation is getting out of hand," said Mr. Fleming, "staff is being disturbed and I feel strongly that the proper chain of command must be used for obtaining any information wanted by a councillor."

The discussion of these complaints was frank and often heated with all other council members of the strong opinion that council and senior staff must be fully informed of all business conducted on behalf of the Town Council. Councillor Bakker made a three-part motion which carried six votes to one - Council-

lor Bull opposing:

Part one: That councillors cannot use town stationery or envelopes unless authorized by council or the mayor.

Part two: Councillors requesting information from staff do so through the mayor or secretary-treasurer and if refusal to divulge such information is received that this be brought before council with the reason for refusal.

Part three: That the staff be instructed that unless authorization is given by the mayor or secretary-treasurer for the obtaining of information that they send the councillors to the mayor or secretary-treasurer for such authorization.

Use of Radio Tower

The question of the use of the radio tower at 96 Sunset Blvd., came under considerable discussion.

It was brought to the attention of council by Mrs. G. Kelly that this tower was being used for commercial purposes. In a well prepared brief Mrs. Kelly stated that the department of transport had given a licence to St. Albert Taxi to use the tower for the dispatching of taxis from the above address.

This use of the tower was not in the original agreement between the town and company when the tower was erected.

During the discussion, Councillor Bull spoke in favor of the taxi company but Mrs. Kelly successfully defended her position on every

Business Closes

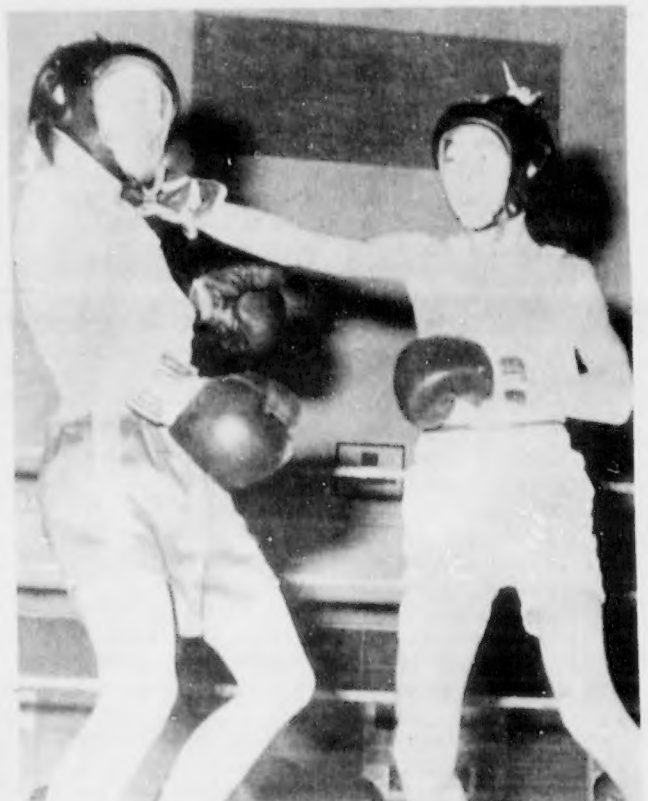

Alberta Fidelity Trust will close the doors of the St. Albert office on Dec. 16.

The branch was opened in May of 1966. Manager of the head office in Edmonton, D. M. Whamond, said when they opened the St. Albert branch they were hoping for a better response and now after careful examination of the operation they find it is uneconomical. Mr. Whamond says that they expect a branch to lose for the first 15 months but after that it must meet its overhead.

"This was a hard decision to make, it is not pleasant to close a branch once you have it going", he said.

Customer accounts will be transferred to the main branch in Edmonton.

Fred Gathercole, manager of the St. Albert branch says he will be leaving the company as will his two members of his staff, Mrs. Laddell and Mrs. F. Shultz.

St. Albert's Ricky Horner, in the 80 pound division, delivers a solid right to the jaw of Richard Klippert of Drayton Valley at the Bronze Gloves Championships held in St. Albert, Dec. 8 and 9.

Mayor's Report

With respect to the enquiry of Councillor Bull as to my recent trip to England I feel the following facts should be known:

On September 11th, 1967, Council met and after due deliberation passed Resolution 5258 as follows:

"(5258) de Bruijn that Mayor Fowler be authorized to interview a witness in England and the travelling expenses for this purpose be authorized."

Council was advised at this time that the Town's solicitors recommended that the purpose of the trip together with any information which might be obtained as a result of it should be kept in the strictest confidence, in order to ensure the confidential nature of the trip and to prohibit any advance publicity it was the recommendation of the Town's solicitors that all travel and other arrangements be made through their office and this was in fact done.

Although Councillor Bull has been verbally advised on two different occasions as to the details of the air fare on this trip, I submitted it in writing at Monday's meeting together with a copy of a letter from Powell Travel Agencies who issued the original tickets.

The photostatic copy of the miscellaneous expenses on this trip is also submitted herewith as part of this statement, and you will note that the daily expenses for the eight days in England was an average of \$14.00 per day including lodgings, meals and other miscellaneous items. I believe this compares most favorably with the \$50.00 allowed councillors by Policy Resolution. In the event that I had been on business only the minimum fare billed to the Town would have been \$598.00. In view of the fact that I was in a position to take holidays at the same time the Town has been billed \$558.00 for a net saving of \$40.00 by virtue of my longer stay.

In an effort to keep all of Council properly informed, within two weeks of his election to council Mr. Bull was thoroughly briefed by me on the present standing of the litigation in which the Town is involved, and he was told the reasons for my trip to England.

During the Council meeting on November 27th Mr. Bull requested permission to examine the Accounts Payable for the month of October which included my London expenses. Although these had been approved by the Finance Committee he declined to vote approval on the accounts on the ground that he had not had time to properly study them.

On November 28th I was informed that the Gazette had been requested to publish a news item with respect to my recent trip to England. I contacted the Town's solicitors who stated very emphatically that it would not be in the best interests of the Town to have this information publicized.

On the same afternoon, November 28th, I had arranged a luncheon meeting between members of Council and certain government officials on other business, and was pleased to have all council members in attendance. Following the luncheon I met with all Council Members in private and asked them to agree to an Emergent Meeting to discuss the matter of the law suits which, of course, would require the signing of Waivers of Notice of such meeting. Following this request by myself, Mr. Bull immediately left the meeting without signing the waiver and as a consequence a formal meeting could not be held.

In the Thursday, November 30th issue of The Edmonton Journal, one day after the Gazette appeared with no reference to the trip to London, a news item appeared raising certain questions as to "an improper pattern of events" with regard to this trip.

I have been ready and willing at all times to account to Council for the expenses which I consider are properly chargeable to the Town in accordance with the instructions given to me by Council, and I have made every effort possible to answer this enquiry satisfactorily and at the same time to avoid any public discussion of the purpose and results of the trip which I felt to be detrimental to the best interests of the Town in respect to the litigation in which it is involved. I deeply regret that this objective has not been achieved.

Historic St. Albert

Pat Cunningham accepts a scroll from Richard Fowler, mayor of St. Albert. The framed scrolls are given in honor of the memory of John Cunningham who was a resident here 100 years ago.

This is one more in the series of biographies of the pioneers whose memory is being honored by the Centennial project of Jim Drysdale.

The Gazette is indebted to Dr. J. W. Chalmers for doing the research and writing their biographies.

JOHN CUNNINGHAM

"Let us now praise famous men and their fathers who begot them."

One of these, whose fame grows yearly in the St. Albert area, was John Cunningham, founder of the Cunningham clan, who came to Fort Edmonton with the Honorable Company - the Hudson's Bay Company - as early as 1800. He was accompanied by his native wife, Rosalie L'Hirondelle, who was one of the first persons baptized at Lac Ste. Anne in 1841. Patriarch John settled on the river lot immediately west of the Cunningham bridge which today carries

traffic over the Sturgeon River just before it enters Big Lake.

There John and Rosalie raised a family of ten children, each of whom made his unique contribution to the development of the West. Eldest was Sam, Captain of the St. Albert Militia company formed at the time of Riel's Rebellion in 1885. Further information about this colorful pioneer will appear in a future issue. Another son, Edward, became the first Metis to be ordained a Roman Catholic priest in Western Canada. The youngest, Henry, inherited his father's river lot and passed it down to the present owner, Pat Cunningham.

For this reason, Mayor Fowler has presented to Mr. Pat Cunningham a Centennial Scroll in honor of his famed forefather John of undimmed memory and founder of the family.

Air Cadets Social

The St. Albert Air Cadets 533 Squadron held a social evening for their parents Nov. 30 in the St. Albert Community Hall. Two former officers, George Lee and Sy Whitton were honored on the occasion of their retirement after nine years of service to the Squadron.

The Cadets performed their precision drill and demonstrated some of the equipment. The Cadet Band is directed by Russ Waite, Mr. Waite, who plays in the Strathcona Legion Band travels to St. Albert every Thursday for drill practice. C. O. Roy Hart said the 533 Squadron is very fortunate to have Mr. Waite as band instructor.

The parents were given an opportunity to ride the Link trainer. This piece of equipment has all the controls found in an air plane and gives one the sensation of flying.

Corporal Mike Green reported on a Glider Course which he took last summer. Sergeant Rod Adam and Flt. Sergeant Bill Kane showed slides and gave an excellent commentary on their recent trip to Expo and Ottawa. They attended the Centennial Camp at Saint John, Quebec, under the sponsorship of the Air Force.

Warrant Officer 2 Bill Hart showed slides and spoke on his trip to the United Kingdom and Germany. Bill was one of two Alberta Cadets taking this trip, 25 of which were awarded by the Air Force across Canada.

Eight Cadets were presented with certificates for attending the camp at Penhold. Corporal Ron Maine was promoted to Sergeant. LAC Leslie Scott and LAC Kendel were both promoted to Corporal. Corporal Gordon Maine and WO2 Bill Hart were given graduation certificates upon the completion of their Air Cadet training.

There are at present about 50 boys between the ages of 13 and 19 in the Air Cadets.

After the program the St. Albert Lions served coffee and doughnuts.

Charter Night

The St. Albert Lions Club held its 15th Annual Charter night at the Club Mocombo Nov. 24.

Centennial Baptism

Identical twin girls, daughters of Mr. and Mrs. Adrien Forand of 31 St. Michael Street, were the 99th and 100th babies to be baptised at Roman Catholic Church on Mission Hill during this Centennial year.

The babies were baptized on Nov. 18 by Fr. M. Lafrance, OMI. Godparents for Tammy Leigh were Mr. and Mrs. Lawrence Forand, Calgary. Trina Renee's godparents were Mr. and Mrs. Rene Forand, Calgary.

The twins were born on Oct. 27, prematurely, weighing four pounds nine ounces and five pounds, two ounces. Dr. Don Downey delivered them in the General Hospital in Edmonton.

Mr. and Mrs. Forand had 11 children previously, the youngest being nine years old, all were single births although both Mrs. Forand's parents have twins in their family. The Forands have five married children and six grandchildren, seven

children at home and one bachelor son in Edmonton.

The new babies are the 63rd and 64th grandchildren of the paternal grandparents Mr. and Mrs. Richard Forand, Radville, Sask., and are the first twins in this family.

A family party was held after the church service. Anton Rapattie made a huge cake for the celebration with a picture of the twins and the words "Welcome Tammy and Trina" made in icing.

Mrs. Forand, whose oldest child is 24 years, says having a large family makes you feel young and keeps you healthy.

Written by Peter Wade, a contemporary British composer, the cantata retells the Christmas Story in the modern musical idiom. Each of the three sections of the cantata includes the scripture narrative, sung by tenor soloist, Richard Leggett and choruses by the choir. The first part deals with the prophecy of Christ's coming, while the second describes His Nativity. The concluding section is one of praise and adoration.

There are many who find in music a deep and meaningful expression of the joy, love and peace of Christmas. A warm invitation to all is extended to attend these services.

Have you ever noticed that when people decide they should have a watch dog for their household they get a highly intelligent dog, specially trained in this work—a German shepherd perhaps. Such an animal will afford protection from any marauder and at the same time be a trustworthy friend of the family.

But when these same people think a watch dog is needed over their civic affairs they will invariably choose a yappy little terrier. The terrier barks loudly at friend and foe alike — is incapable of providing any real protection and offers only a nuisance value in his watch dog capacity.

Also the question arose as to where the operators of these vehicles could go if they were prohibited from all open lands within the town's boundaries. The matter will be discussed at the joint use committee meeting held on Dec. 13.

Kinnettes Christmas Hampers

by Hennie Stibbe

The St. Albert Kinnettes are again sponsoring the Christmas hamper bureau. Residents of the town are invited to submit names of needy families by telephoning Mrs. M. Huebert at 599-8228, Mrs. V. Parenteau at 599-8186 or Mrs. D. Pollard at 599-6921 no later than Dec. 16.

Last year the Kinnettes distributed some 40 Christmas hampers to St. Albert families. Mrs. Huebert said donations of new or good used toys and food are most welcome and can be dropped off at the Huebert residence 14 Sylvan Drive. So when you are out shopping for your family's Christmas needs, buy an extra toy or two. Pick up an extra can of coffee, a couple of bags of Christmas candy, cigarettes or other holiday treats. Too busy? Cash donations are gratefully accepted! Help the St. Albert Kinnettes give our less fortunate neighbours a Merry Christmas.

Work done by the Children's Ceramics Class, instructor for the class, sponsored by the St. Albert Craft Guild, is Mrs. P. G. Hemingway, 24 Balmoral Drive. The work done by the children, aged five and half to twelve years old is exceptionally good. The youngsters are so productive that halfway through the season more clay had to be purchased. The St. Albert Craft Guild will hold their Annual General Meeting Dec. 13 at 9:30 p.m. in the Community Hall. Members and interested persons are urged to attend.

The formal reception starts at 9:30 p.m. and dinner can be ordered anytime

after 9:45 p.m. Dinner will include wine and each table will be reserved in advance for each party. Hats, decorations and noisemakers will all be supplied.

The Chamber reports that there are still a number of tickets available and reservations can be made by phoning the chairman of the Ball Committee, Bob Russell at Grandin Realty 599-3929.

Sturgeon Health Unit.

Joe, in Pickwick Papers - "there was not a gleam of mirth or anything but feeding in his whole visage" - is literature's classic fat boy. In only one circumstance did his facial appearance change. When he went rook-shooting with Mr. Pickwick and his friends, his job was to recover the quarry. "Take him up, Joe" said the old gentleman after shooting his first bird. There was a smile upon the youth's face as he advanced. Indistinct visions of rook-pie floated through his imagination. He laughed as he retired with the bird - it was a plump one

One's amusement at this picture results from a mixture of emotions of disgust and revulsion, tempered only by the oft-quoted excuse that Joe had some glandular disorder or other. If this is true, then his condition was certainly an uncommon one. To suggest that a fat child has something wrong with the glands often provokes unnecessary anxiety and doesn't help find a cure. Such a diagnosis should only rarely be made because the overwhelming majority of children are fat for one obvious reason and for no other: they eat too much. Hereditary factors there may be - who can dispute that some put on weight more readily than others? - but though the geneticists may hold the explanations, it's a dietician who has the cure. Obesity is miserable in its effects, both physical and emotional. "The bigger the better" is 99% untrue with regard to the human body. Far more sensible to prevent fatness developing. Anticipate it by observation, particularly towards puberty. There's something to be said for regular weighing, say at six month intervals, if the parent looks for the excess gain which means fat deposits, and is alive to the dangers. Treatment is largely a matter for discussion

New Store Opens

BCB Television is operating from a new store just south of their former premises on the north end of Perron Street.

They moved because they needed more space as they have added a hobby business to their present stock of radios, TV's and stereos.

Models of all kinds, and kits as paint by numbers, mosaics and hobby supplies can be found at the store. Also a large stock of records.

The new shop is bright with walls decorated with knotty pine panelling. There is a large showroom and office space in the front of the store and a large work shop at the back.

Mr. and Mrs. Chris Baart owners of the store, both work there and they employ a technician, Marcel Lafleur and a sales clerk, Mike Ouderheyde.

Mr. Baart started to train as an electrician at the age of 12 years. Later he returned to technical school for three years training as an instrument maker. He has taken night school to study electricity and radio technology and has had two years in the army training in electronics.

Mr. Baart worked with government telephones in electronics and closed TV and they gave him two years further training in electronics.

The Baarts came to Canada in 1963 and have been in St. Albert for the past three years.

BCB sells the Toshiba TVs, radios and tape recorders and has a color TV for less than \$600, with a one year guarantee. Toshiba is a Japanese firm that has been in the business since 1875.

JUSTICE FOR SGT. RYKER

Would you believe that handsome, clean-cut Peter Graves, co-starring opposite Lee Marvin and Bradford Dillman in "Justice For Sergeant Ryker," became an addict during his college days at the University of Minnesota?

"When I got on stage for the first time," recalled Peter, "it was like heroin -- I got hooked and still can't kick the habit."

between parent, child and doctor; none of these persons can control the situation alone. Drugs, though occasionally of value, are no substitute for firm resolve and an attempt to reduce the guilt feelings in parent and child and the sense of being somehow unusual or perhaps abnormal in development.

Diet training must follow for basic nutritional needs. It is essential to review the dietary habits of the whole family. The principles are to restrict total Calories to about 1200 a day, with as much bulk as possible, plenty of animal protein and limited sugar, starches and fat. Total fat should amount to no more by weight than one-quarter that of carbohydrate.

Mr. and Mrs. Chris Baart are seen behind the counter of their new store on Perron Street. They have added hobby supplies and models to the store's stock of electrical appliances and records.

Stuart Rindero led the worship period and gave a short address on the origin of White Gifts. Scripture selections were read by members of the senior class of the Sunday School and the Intermediate Choir under the direction of Eric Robinson provided special music. Following the brief service coffee was served at a social hour in the Church Hall.

Road condition - East Riviere Qui Barre and West Morinville roads - Letter signed by the teachers of the Camilla school was read. It stated that the above mentioned roads were for the greater part of the year in a deplorable condition. John Deere Opens Edmonton Office

Recently the new John Deere main office for the Western provinces opened in Edmonton.

Hon. H. Strom officially opened the \$2,700,000 Edmonton operation by driving a John Deere "mini" tractor through the official ribbons.

The office building with a parts department of 32,692 square feet and containing 35,000 different items worth \$1,300,000 will serve agricultural dealers from Alberta and British Columbia and industrial dealers from these two provinces and Saskatchewan and Manitoba. The reasons for moving the office from Calgary to Edmonton is that it is felt Edmonton is a closer centre to the provinces and the new development from the north.

There are 106 on staff who will serve the dealer who is

faced with a farmer demand for expert service as farm machinery becomes more complicated each year. Schools are set up for dealers to enable them to keep up with changes constantly being made.

The Edmonton Industrial Development Board reported that "John Deere, the largest farm implement company in the world, has placed a handsome feather in their hat when it chose Edmonton as the site for its new distribution centre.

Members felt that an afternoon should be reserved for such an occasion and that provincial authorities, radio T.V. and press representatives be invited. Coffee and sandwiches served in the office lounge is the council's wish.

The decision was made at the Nov. 21 and 22 meeting of the council of the municipal district of Sturgeon.

Sturgeon Crest Subdivision: W. Hnativ appeared in order to repeat his complaint in relation to the road conditions adjacent to his property in the Sturgeon Crest Subdivision. He stated that his road was in urgent need of gravel and grading. He was assured by Council that the road in question was to be graded and regravelled within the next two weeks. As to the weed infestation problem in that area, this matter will be referred to the agricultural fieldman for his close inspection and attention.

Ladies View Wigs

On Dec. 4 the Christian Ladies (M.F.C.) held their monthly meeting at the recreation centre with about 75 ladies in attendance.

The president opened the meeting with the devotion to St. Anna. The president asked everyone to have their used clothing for the missions brought to the convent by the end of the week.

A Christmas party for the members and their husbands will be held at the recreation centre on Dec. 17 at 8:30 p.m.

The highlight of the evening was the wig and postiche demonstration given by Robert Parent from Mr. Robert's Beauty Salon of Edmonton, assisted by Mrs. Parent as model and Miss Lorraine Carneau hair-dresser.

Mr. Parent styled hair-pieces and combed wigs that the ladies enthusiastically tried on. Every lady had the opportunity to ask questions, try on the wigs and really get pointed on the different types, brand names and the care of wigs. Mr. Parent told the ladies that the wigs

Another facet of their operation which Mr. Kriak felt was of prime importance was the arrangement of sale and purchase of seed processed at the plant. He urged farmers who had high quality seed to list their stocks with him.

School Board Studies Conveyance

It was reported to the Nov. 23 meeting of the St. Albert Protestant Separate School Board meeting that a transportation inquiry letter had been distributed to all parents in the district. Copies returned showed a large majority were in favour of rigid adherence to the policy of conveying only those children who live one and half miles or more from the school.

The Resolution as follows was passed.

Effective Jan. 1, 1968 the board conform to the school act and the school foundation program fund regulations regarding pupil transportation.

The superintendent was requested to present a recommendation regarding the need for noon-hour lunches. He was also requested to prepare a report showing the locations that are one and half miles from each school.

Those present at the meeting were: R. Harvey, chairman; C. Schroder, J. Wiltshire, Dr. W. Cuts, W. Penrose, Dr. J. W. Chalmers, superintendent; E. Murray, secretary - treasurer and four members of the public.

The board approved the recommendations of the committee of the whole meeting held on Nov. 16 with respect to -

Appointment of bargaining agent - L. G. Young, ASTA. Appreciation for work done by Bob Russell.

Reimbursement of correspondence school fee to Mike Oakley.

Leave of absence from teaching by Mrs. Rudyk.

Leave of absence from teaching by Mrs. Lubitz.

The board will not proceed with a study of the site drainage at the Sir George Simpson School at this time.

D. J. Corse, executive assistant of ATA has been appointed to represent the bargaining agent in salary negotiations with the teaching staff.

The town of St. Albert has assessed the property purchased from the Laderoute Estate and have submitted a tax notice for the year 1967 with arrears for the year 1966. Section 20, Subsection 3 of the municipal taxation act 1967, reads as follows:

"The following property is exempt from assessment by a municipality, namely:

school buildings and lands owned and occupied by a school district or school division solely for the purpose of a school and not exceeding

(i) in the case of a city, town, new town, village or summer village, four acres of land for each school, or where required and used for school purposes, such greater acreage as may be exempted by a by-law of the city, town, new town, village or summer village, and

(ii) in the case of any other municipality, eight acres of land for each school, or where required and used for school purposes such greater acreage as

may be exempted by a by-law of the municipality."

He recommended that the Board request the Town of St. Albert to pass a by-law exempting the property in question from assessment.

The board will make application to the town of St. Albert for exemption from assessment of Block B, Plan 1432 AX; Lots 1-9, Block 4, Plan 1432 AX; Lots 10-20, Block 4, Plan 1432 AX.

The superintendent referred to a request received from the Zone 11 High School Drama Festival for a grant of \$25.00.

The board approved the grant in the amount of \$25 to the zone 11 drama festival.

The superintendent recommended that the board change the policy regarding allowances paid in lieu of conveyance to those parents whose children attend a special school due to various handicaps. He mentioned that two buses are presently serving St. Albert, a bus known as the Edmonton Handi-Bus and a bus operated by the Winnifred Stewart School for Retarded Children. He recommended that payment be made directly to the Edmonton Handi-Bus and the Winnifred Stewart School instead of paying each family \$2 per day.

Present policy will be continued for the 1968 - 69 school year to accommodate those parents who have entered their children in kindergarten in the expectation of their admission to school in Sept. 1968, but

that those between the ages of five years six months and five years eight months as of Sept. 1, 1968 be finally assessed with respect to readiness during one week in June 1968. Those moving into the District during the summer months may be assessed during a week in September.

Beginning in September 1969 only children aged five years eight months will be accepted, and these admitted unconditionally.

Mr. Penrose spoke briefly on his attendance at the seminar for Educational Finance at the Banff School of Fine Arts, and advised the board that he and Dr. Cuts intend to prepare a written report covering the seminar.

Report From Parliament Hill

Doug Caston, M.P.

"Well, how do you like being in politics?", or "How do you like it here on the Hill?" are the questions that I have been getting pretty regularly in the three weeks since officially taking over the Jasper-Edson seat in the House of Commons on Nov. 21.

Perhaps you, the voters who sent me here, might be interested in hearing about my first impressions of Canada's Parliament.

Primarily, the welcome by members of all parties is genuinely friendly and helpful. While a new member doesn't have too much to do for the first few weeks, I see some of the fellows who have been here for several years dogging it through the halls to the various committee meetings. The committees do a great amount of detailed work of examining into the various matters referred to them, and finally reporting to the House their findings and recommendations, from which legislation often results.

As far as the debates in

the House itself are concerned, they are both enlightening and boring. Within minutes, a rapid-fire exchange between members can degenerate into a sleep inducing flow of words that seem to have no other purpose than to get space in Hansard, the official record of the words spoken in the House.

It seems to me that members of the NDP persuasion are a little more addicted to this type of speech making without purpose than are the members of the government or the official opposition. Under the leadership of Mr. Stanfield, we, (the Conservatives) are trying to facilitate the business that the government of the day is attempting to have passed. Last night, two members of the N.D.P. spoke at great length on a Bill to survey about 36 miles of the Yukon-B.C. border that originally had been commenced in 1899. No Liberal or Conservative was worrying about it. The

Bill made sense, so let's get on with something else of importance like the mini-budget or the reform of the divorce laws was our point of view.

Your new member was aware that there would be frustrations, and I think the one most difficult to adjust to will be the ponderous process of Parliamentary debate, the necessity under our system to allow the expression of all and every point of view before anything gets done. The alternative, unfortunately is a dictatorship where a Parliament rubber stamps legislation without comment or criticism or attempt at amendment.

My background in community newspapering I think should help me to adapt to the gold-fish bowl type of life a politician must live, since sometimes the only protection that the weekly newspaperman has are the game laws.

SMALL FRY HUMOUR

"A Modern Quality" — Sue was busy with her new baby in the kitchen when young Gregg called from the bathroom, "Mommie, I'm finished but there's no more toilet paper". "Greg" she replied, "Mommy's busy. Please wait!" There was silence for a moment and then a weary voice spoke "It's all right, I'll drip dry".

Sent in by Mrs. Peggyanne Peers, Edmonton, Alberta.

My four-year-old niece and her little friend happened to be visiting me while I was doing the laundry. The other

observant little friend asked me why I was using bluing (her mom didn't it seemed). Before I could answer her my little niece piped up — "Didn't you know silly! That's to hide the dirt".
